

1.     Weapon system comprising:  
a weapon; and  
time apparatus adapted to disarm the weapon after a selected time has elapsed.
2.     The weapon system of claim 1 wherein the weapon is selected from the group consisting of bombs, missiles, aircraft, torpedoes, land mines, sea mines, munitions, and hardware related thereto.
3.     The weapon system of claim 1 further including means for shortening or extending the selected time, either before or after the selected time has elapsed.
4.     The weapon system according to claim 3 wherein the means for shortening or extending the selected time is remote from the weapon.
